## EXAMINER'S AMENDMENT AND REASONS FOR ALLOWANCE

### *Examiner's Amendment*

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The first paragraph on page 1 of the specification has been amended to read as follows:

--This application is a continuation of application Serial Number 09/139,773, filed August 25, 1998, now abandoned.--

### *Reasons for Allowance*

The following is an examiner's statement of reasons for allowance: The primary reason for allowance is that the prior art of record does not disclose or suggest a process or reactor as claimed in which at least four catalyst layers are utilized with the layers satisfying the relationship represented by the claimed formulae. The closest prior art of Angevine explicitly discloses a three catalyst system that satisfies the claimed relationships but does not disclose or suggest the use of four or more catalysts that satisfy the relationships. There is no motivation to select a fourth catalyst layer that, coupled with the disclosed three catalyst system, would result in a reactor or process containing catalyst layers that satisfy the relationships.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
